CITE CIA/IAS 9980

THE FOLLOWING IS FROM THE CIA/IMAGERY ANALYSIS STAFF:

NGA review(s) completed.

1. A NEWLY IDENTIFIED MISSILE TRACKING FACILITY HAS BEEN OBSERVED NEAR NENOKSA, USSR AT 64-38N 39-09E.

2. THIS SECURED FACILITY, IS CO-LOCATED WITH THE NENOKSA HF COMMUNICATIONS FACILITY, WHICH IN TURN IS LOCATED APPROXIMATELY ONE NAUTICAL MILE (NM) SOUTHWEST OF THE NENOKSA CRUISE MISSILE TEST CENTER LAUNCH AREA. THE MISSILE TRACKING FACILITY CONSISTS OF SIX ANTENNAS SITUATED ON HARDSTANDS. THESE ANTENNAS ARE POSITIONED IN A STRAIGHT LINE WITH A LARGE CONTROL BUILDING LOCATED IMMEDIATELY TO THE REAR OF THE ANTENNAS. OF THE SIX ANTENNAS, THREE ARE PROBABLE TELEMETRY ANTENNAS, TWO ARE PROBABLE TELEMETRY/TRACKING ANTENNAS, AND ONE IS UNIDENTIFIED. IN ADDITION, TWO SUSPECT ANTENNAS ARE POSITIONED ON THE ROOF OF THE LARGE CONTROL BUILDING MENTIONED ABOVE, AND FOUR POSSIBLE ANTENNAS ARE POSITIONED ATOP A LARGE MULTI-STORIED SUPPORT BUILDING WHICH IS LOCATED IMMEDIATELY WEST OF THE CONTROL BUILDING. THE ANTENNAS APPEAR TO BE OVERLOOKING THE NENOKSA MISSILE TEST CENTER LAUNCH AREA.
